

Accelerating Global Energy Transition

Ground Mount Solar

Rooftop Solar

Floating Solar

Operations and Maintenance

Pioneering Solar Excellence with Safety, Precision, and Timely Execution

Company Overview

Waaree Renewables Technology Limited (WRTL), a subsidiary of Waaree Energies Limited, leads the Solar EPC sector with over 10,000+ solar installations and 600+ MW operating capacity. Headquartered in Mumbai, we develop, finance, and operate solar projects globally, focusing on commercial and industrial segments. Waaree's core values of Integrity, Respect, Customer First, Passion for Excellence, and Continuous Improvement drive our mission to provide clean energy through innovative solar solutions.

Shaping a Renewable-Powered Future and Empowering Progress Through Sustainable Solutions towards NET ZERO

Vision

Leading the transition to net-zero emissions with sustainable EPC services, prioritizing excellence, integrity, and environmental stewardship.

Mission

To drive global leadership in innovative solar energy solutions by consistently delivering top-tier EPC services.

Trusted EPC Expertise with Quality, Safety and On Time Delivery, Every Time

Customer Connect

Waaree boasts a strong customer base from prestigious industrial houses, establishing lasting connections.

Market Acceptance

Our name stands for proven quality and competitive rates across national and international markets.

Network Strength

A decade of strong relationships with stakeholders, authorities, and partners ensures smooth project execution.

Innovation

We continuously introduce new technologies and innovative solutions that cater to evolving industry needs.

In-House Team

A highly experienced team that has consistently delivered stellar performance in solar projects.

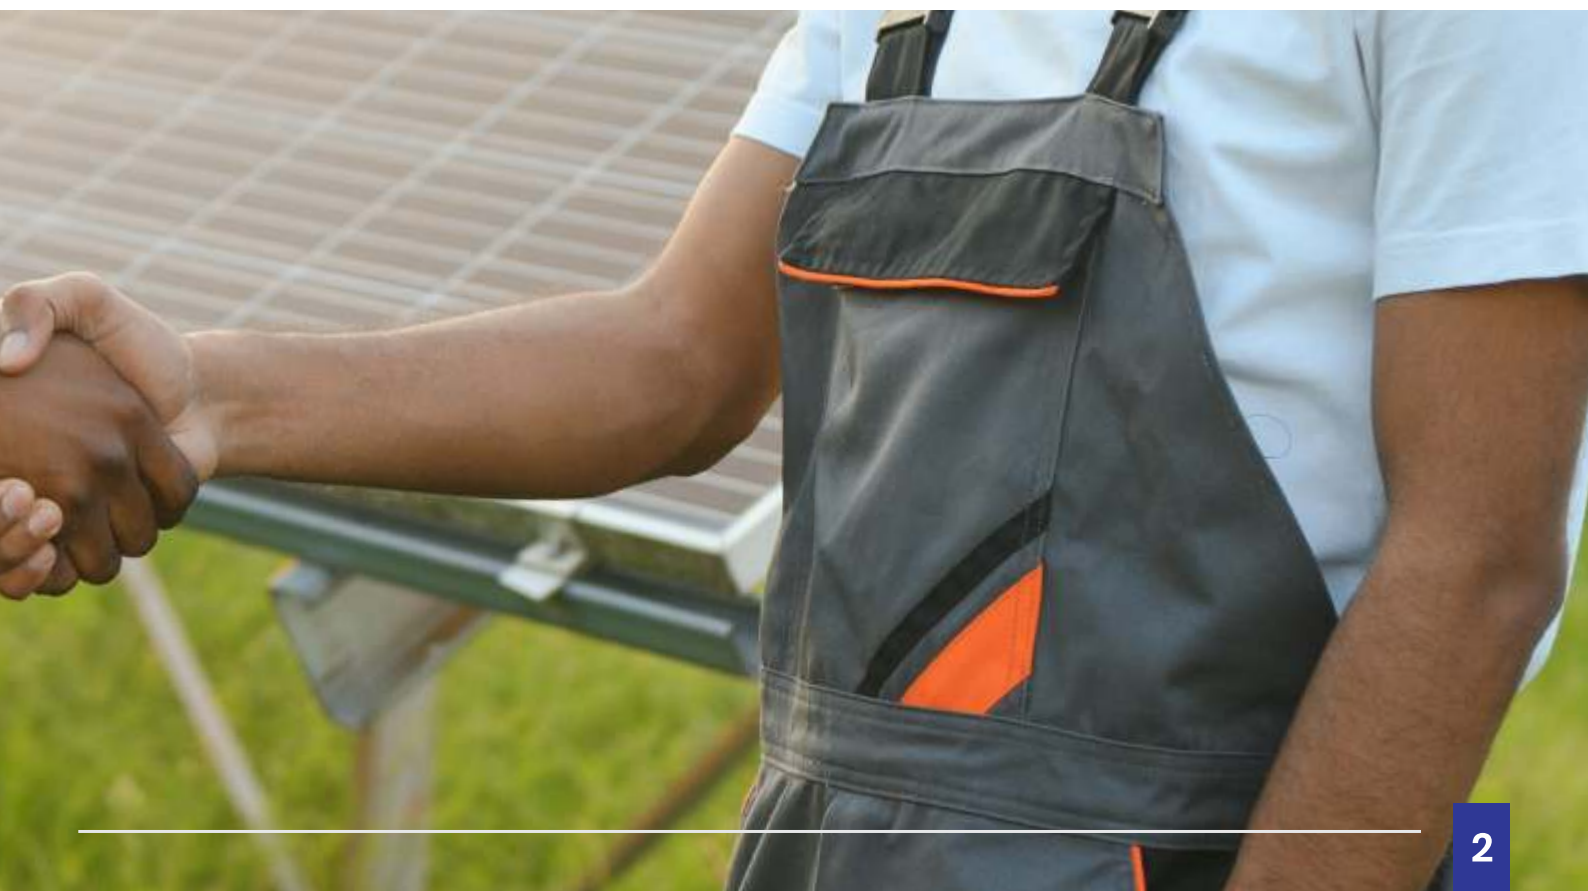

Quality Certification

Waaree has been recognized for top performance in Kiwa PVEL and RETC's 2024 PV Module Index, achieving excellence in durability, power degradation, and energy yield simulations.

Proven Ground Track Record

We have a legacy of successful large installations, showcasing long-term on-ground performance. Alongside EPC, Waaree manufactures its own inhouse solar modules, ensuring full control over quality.

Advanced EPC Solutions for Safe, Timely and Energy Efficient Projects

Solar Modules

High-efficiency solar modules with top-tier reliability.

EPC Services

Comprehensive, end-to-end engineering, procurement, and construction services for solar projects.

Rooftop Solutions

Tailored rooftop solar installations for homes, businesses, and industries.

Floating Solar

Innovative floating solar solutions that maximize underutilized water spaces.

Module Mounting Structures

Durable and reliable structures for optimal panel placement and longevity.

Water Pumps, Street Lights

Solar-powered water pumps and streetlights for sustainable utility services.

On-Grid Inverters

Efficient, grid-connected inverters for maximum energy conversion.

Off-Grid Inverters

Reliable off-grid inverters for remote energy needs.

Solar Thermal Solutions

Cutting-edge thermal solutions for efficient energy usage.

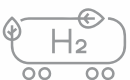

Lithium-Ion Batteries

Advanced energy storage systems for continuous energy availability.

Energy Storage Solutions

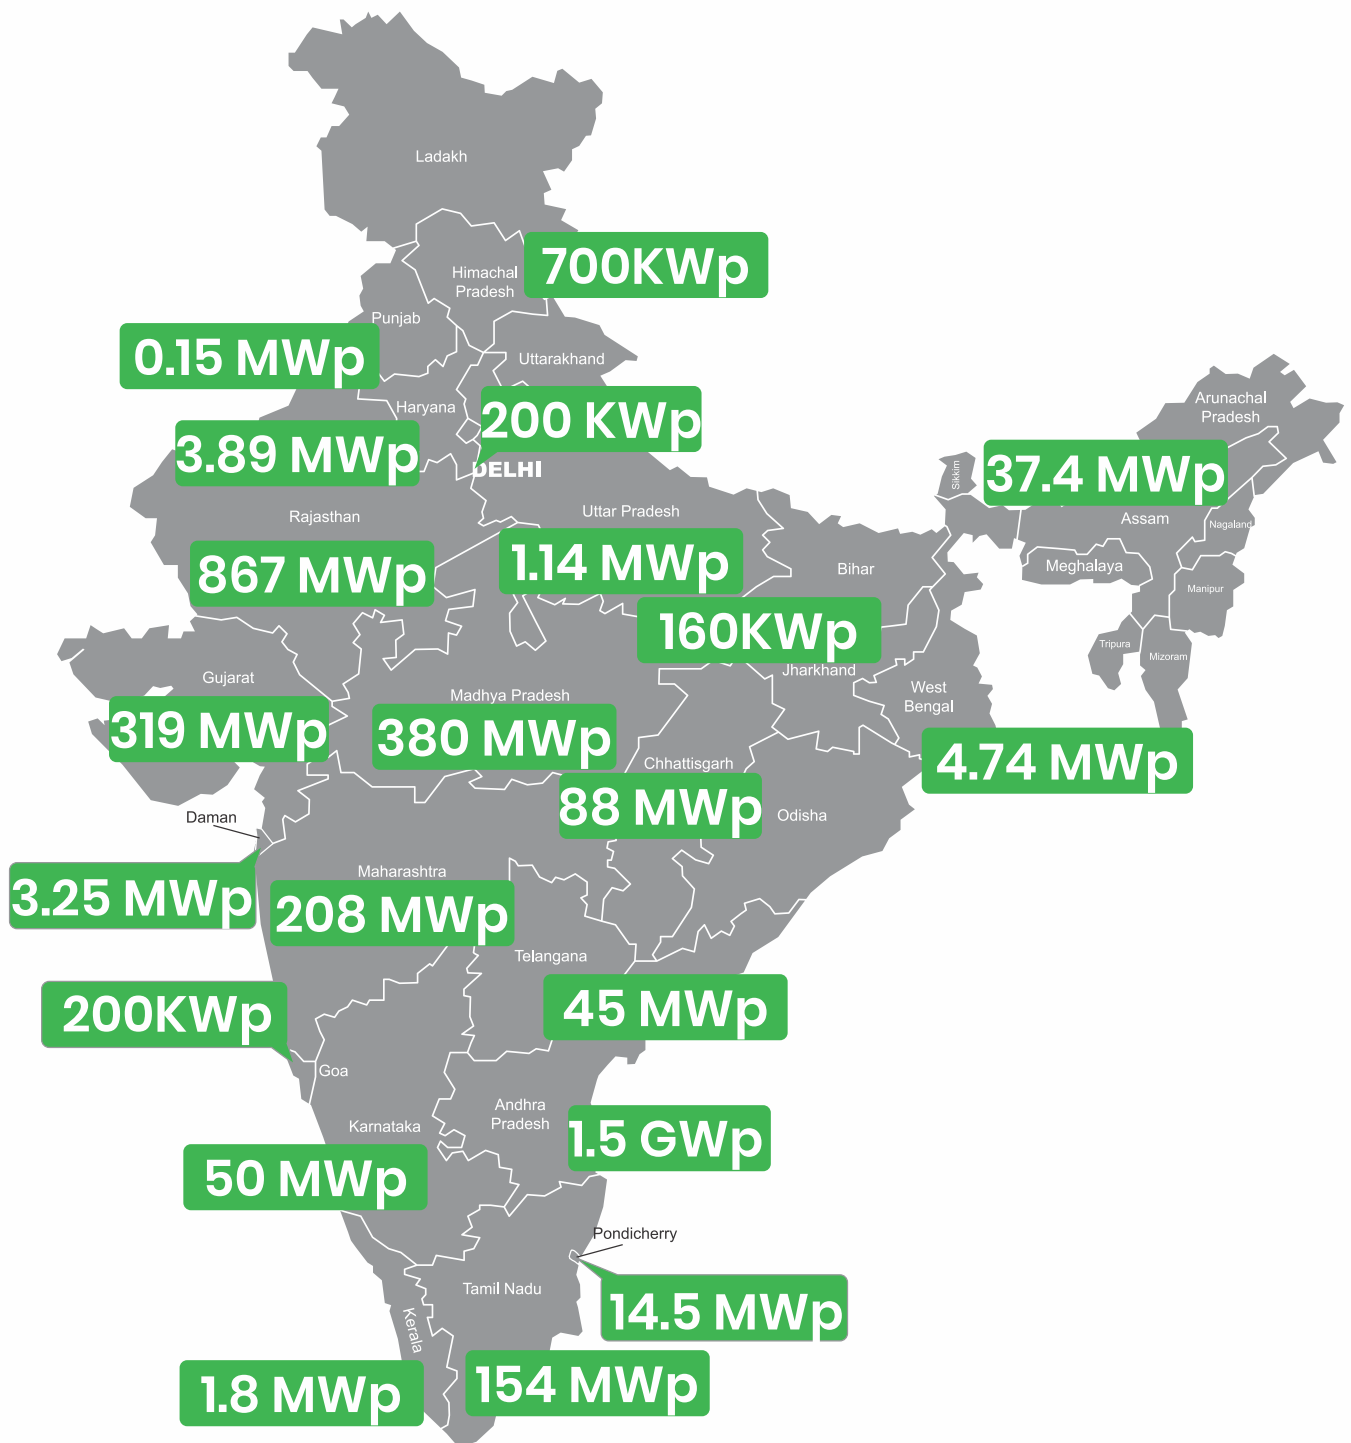

Complete energy storage systems that optimize solar energy usage.

Green Hydrogen

Green hydrogen solutions for sustainable energy transitions.

Innovation at the Heart of Every Project

Total EPC Portfolio :
2.5+ GWp

Total Rooftop Portfolio :
53+ MWp

2.5+ GWp Solar EPC Projects Commissioned

3.4GWp of Projects Under Commissioning

2012MWp Jindal Renewables
Bikaner, Rajasthan
(Under Commissioning)

980MWp Greenko Solar Power Project
Kumool, Andhra Pradesh
(Under Commissioning)

540MWp Continuum Green Energy

412.5MWp Acciona ISTS Solar Plant
Bikaner, Rajasthan
(Under Commissioning)

210MWp Masaya Solar
Maharashtra

100MWp Waaneep Solar Pvt. Ltd.
Madhya Pradesh & Andhra Pradesh

49.5MWp Song Giang Solar Power
Joint Stock Co.
Vietnam

44MWp Hero Future Energies
Telangana

40 MWp Continuum Green Energy
Gujarat
(Under Commissioning)
BATTERY STORAGE EPC PROJECT

53+ MWp Rooftop Solar Projects Commissioned

1200KWp Reliance Metro
Mumbai

2000KWp Mondelez India Pvt. Ltd.
(Cadbury), Andhra Pradesh

1860KWp Maharashtra Seamless Ltd.
Maharashtra

1700KWp Pirmal Glass Ltd.
Gujarat

1000KWp SRG Apparels
Tamilnadu

1000KWp Surat Municipal Corporation
Gujarat

700KWp MSL Driveline System Ltd.
Maharashtra

450KWp Orbit Bearings
Gujarat

429KWp Reliance Mart
Pan India

Waaree EPC Solutions & Services

Ground Mounted Solar

Large-scale, ground-mounted solar solutions for commercial, industrial, and utility needs.

Rooftop Solar

Precision-engineered rooftop installations tailored to regional regulations and climate conditions, reducing grid dependency globally.

Floating Solar

Innovative floating solar systems optimized for diverse water bodies, maximizing space utilization and operational efficiency.

Green Hydrogen

We offer comprehensive solutions for green hydrogen: alkaline electrolyzers, large-scale projects, O&M services, and custom solutions.

Battery Energy Storage

Reliable Energy Storage Solutions for Utility Scale Projects, Commercial & Industrial applications.

Operation & Maintenance

Comprehensive O&M expertise ensuring optimal performance and extended lifespan of solar assets across diverse environments.
